BIOMETRICS GET THE THUMBS UP

THE GLOBAL BIOMETRIC ACCESS CONTROL MARKET WILL GROW AT AN **18%** CAGR FROM 2015 TO 2019⁶

ENABLING THROUGH CABLING

This workplace isn't a distant dream. Organisations around the world are already implementing these systems and solutions today.

However, these technologies are only as good as the structured cabling and topology that supports them so ensuring your network can incorporate new systems is crucial.

Contact one of our experts today on 0845 833 1163 or email us at info@roycecomms.com to find out if your structured cabling is fit for the future.
